

## INTERMEDIATE DESIGNER / TECHNOLOGIST

fighting climate change  
with affordable green design

Looking for a place to flex your design skills and make a real difference with your work? Do you see yourself as part of a cooperative team of people who share your values and are working to fight climate change with low carbon design?

**The Architect Builders Collaborative Inc. [TABC]** is looking for you! We are currently seeking an **Intermediate Designer or Architectural Technologist** with 3+ years experience to join our studio and contribute your skills to helping us make great low-carbon buildings and retrofits.

Like us, you believe that Architects and Designers have a key role to play in building a **more inclusive, sustainable society**. You seek to put your talents to work and hone your skills by designing & facilitating beautiful, cost-effective, low carbon buildings that contribute to making a better City for all to enjoy.

Through the creative adaptive reuse of older buildings, enhancing accessibility for all, creating new low carbon homes and socially inclusive spaces TABC dedicates our work to making a real difference in our Clients lives. We strive to create and renovate green buildings that **nurture the human spirit** in collaboration a wide range of equally passionate Clients and Consultants.

### The Role:

- Project related work [85%]
  - Assist the Lead Architect with the design and completion of construction documents for a variety of projects
  - Ensure that TABC standards of work and service are met
  - Participate in Client meetings & communications
  - Work collaboratively with other team members
  - Assist with the coordination of Consultants work
  - Assume progressive responsibility for completion of projects in accordance with your abilities
- Business Development support [10%]
  - Participate in marketing efforts & project pursuits
- Practice Management [5%]
  - Share responsibility for some aspect(s) of the management of the practice
- Full-time permanent position with opportunities to grow with the firm

## **The Studio:**

- Beautiful studio workplace in Leslieville
- Family-friendly (and pet-friendly) culture
- Strong social justice and environmental shared values
- Advanced BIM (Archicad) work environment
- Flexible mix of studio based and remote work
- Mutually supportive environment for professional development

## **Your Qualifications:**

- A passion and understanding for green design
- 3+ years professional experience in a design, or technical role in an Architect's studio
- Experience working in small teams to deliver projects on schedule
- Comfortable working with multiple priorities
- A professional degree in Architecture or Design
- Demonstrated experience in at least one of our core areas: Interiors, Adaptive Reuse, Low Carbon design, Supportive Housing
- Experience working with the OBC and local planning approvals
- Excellent written and verbal communication skills
- A commitment to your own professional growth

## **The Rewards:**

- Competitive compensation including base salary, profit sharing plan, generous vacations, and Paid Personal Time Off
- Opportunities to work with a range of committed Clients in the non-profit and private sector on a range of project scales
- Support for your professional development and ongoing growth with in-house mentoring
- Flexible, family-friendly work arrangements
- Being part of a team that support and nurture each other
- Knowing your talents are making a positive difference

## **We value diversity in our workplace**

At The Architect Builders Collaborative, we believe that diversity supports great design. We welcome people of all backgrounds, gender, and abilities who want to help find solutions to climate change through making great green buildings.
